Teacher's Manual

Computer with Frolic (Class-1)

CHAPTER 1 : INTRODUCTION TO A COMPUTER

- A.** 1 c 2 a 3 b **B.** 1 Fast 2 Time 3 Easy **C.** 1. F 2. F 3. T 4. T **D.**
1. A computer is a machine which makes our work easy and it works on electricity. 2. Bicycle, Scissors 3. Fan, computer
E. (a) M (b) O (c) U (d) S (e) E.

CHAPTER 2 : A SMART MACHINE

- A.** 1. b 2. a 3. c **B.** 1. School 2. Music 3. Sums **C.** 1. F 2. T 3. F **D.** 1. To study and play games, To deposit and withdraw money. 2. Banks, School, Hotel, Home 3. It remember many things, It never get tired, It works very fast.

CHAPTER 3 : PARTS OF A COMPUTER

- A.** 1. b 2. c 3. b **B.** 1.VDU 2. Keyboard 3. Commands **C.**
1. T 2. F 3. T **D.** 1. CPU is the brain of the computer and it stands for central processing unit. 2. Keys are used for typing keys are used to give commands to the computer 3. It helps to draw pictures, It helps to play games. **E.** 1. c 2. b.

CHAPTER 4 : THE KEYBOARD

- A.** 1. (a) 2. (c) 3. (b) **B.** 1. number 2. spacebar key 3. two
C. 1. F 2. T 3. T **D.** 1. The alphabet keys are used to type words and senteces. 2. The spacebar key is used to give space between two words and the enter key is used to move

cursor to the next line. 3. Cursor is a small blinking line on the monitor which tells the position of the typed text.

MODEL TEST PAPER-I

A. 1. (b) 2. (b) 3. (a) 4. (c) **B.** 1. Spacebar 2. VDU 3. School 4. easy **C.** 1. F 2. F 3. T 4. T. **D.** 1. The spacebar key is used to give space between two words and the enter key is used to move cursor to the next line. 2. CPU is the brain of the computer and it stands for central processing unit. 3. A computer is a machine which makes our work easy and it works on electricity. 4. It remember many things, It never get tired, It works very fast.

CHAPTER 5 : LEARN TO USE A MOUSE

A. 1. b 2. a 3. c **B.** 1. draw 2. single click 3. computer 4. mouse pad **C.** 1. F 2. F 3. T 4. T **D.** (1) Dragging the mouse to move an object while holding the left button pressed 2. Pressing and releasing the left mouse button twice in a quick time is called a double click. 3. A mouse has three buttons. (i) Left button (ii) centre button or scroll wheel (iii) Right button 4. Put the index finger on the left mouse button. **E.** 1. Ring finger 2. Thumb 3. Middle finger 4. index finger.

CHAPTER 6 : FUN WITH PAINT

A. 1. b 2. a 3. b **B.** 1. Microsoft 2. Shapes 3. Eraser **C.** 1. T 2. F 3. T **D.** 1. Tool group, shapes group, Colors group 2. Ribbion → It contain tabs, group and commands. Tabs → It contains tools arrqanged in different groups. 3. 1.Click on

the Home tab. 2. Click on the Oval in the shapes group. 3. Click on the drawing area and drag the mouse to another place. As another place. As you drag a circle is drawn. **E** .1. c 2. d 3. b 4. a

CHAPTER 7 : MANNERS IN THE COMPUTER LAB

A. 1. c 2. b 3. c **B.** 1. monitor 2. computer 3. keyboard
C. 1. T 2. F 3. T 4. T **D.** 1. (i) Do not push the computer table (ii) Do not eat on the computer table (iii) Always keep the mouse on the mouse pad. 2. We must act properly in the computer lab and follow good manners. 3. Sitting too close to monitor will harm your eyes. 4. We should keep the mouse on the mouse pad. **E.** 1. ~~x~~ ✓ 2. ~~x~~ ✓ .

MODEL TEST PAPER-II

A. 1. c 2. b 3. b 4. b **B.** 1. Shapes 2. computer 3. keyboard 4. mouse pad **C.** 1. F 2. F 3. F 4. T **D.** 1. Dragging the mouse means to move an object while holding the left button pressed. 2. (i) Click on the home tab (ii) click on the oval in the shapes group 3. click on the drawing area and drag the mouse to another place. As you drag a circle is drawn. 3. We should keep the mouse on the mouse pad. 4. A mouse has three buttons. (i) left button (ii) center button or scroll wheel (iii) right button.

Teacher's Manual

Computer with Frolic (Class-2)

CHAPTER 1 : COMPUTER- AN ELECTRONIC MACHINE

A. 1. a 2. c 3. c **B.** 1. Keys 2. CPU 3. Printer 4. scanner **C.** 1. F 2. T 3. T 4. T **D.** 1. The mouse is used to point and select an object 2. The four main part of a computer and mouse 3. (i) play games (ii) Watch movies 4. A human being can think but a computer cannot think.

CHAPTER 2 : USES OF COMPUTER

A. 1. b 2. b 3. a 4. b **B.** 1.Cars. 2. Weather 3. time table. 4. diagnasing. **C.** 1. F 2. T 3. T 4. F **D.** 1.Computer is used at school to keep records and help to teacher to teach. 2. To purchase item from home with the help of computer is known as online shopping. 3. (i) It helps doctors in doing operation. (ii) It helps in diagon various diseases. 4. Computer are used at (i) Schools (ii) Hospitals (iii) banks (iv) offices.

CHAPTER 3 : OPERATING THE COMPUTER

A. 1. c 2. b 3. b **B.** 1. icons 2. CPU 3. desktop **C.** 1. F 2. F 3. F **D.** 1. Shut down means to close or to turn off the computer. 2. The first display screen the appears on starting a computer is called desktop.3. The grey title bar indicates that it is not the active window. 4. The small pictures on the desktop are called icons.

CHAPTER 4 : KEYBOARD AND ITS FUNCTIONS

A. 1. b 2. a 3. b 4. b **B.** 1. Caps Lock 2. Return 3. Left Arrow 4. Delete **C.** 1. T 2. T 3. T 4. F **D.** 1. Caps Lock key is used to type in capital letter when on. 2. (i) Spacebar (ii) Enter (iii) Caps Lock (iv) Arrow (v) Backspace key (vi) Delete key. 3. The number keys are used to type numbers. They are marked with the digit 0 to 9.

MODEL TEST PAPER-I

A. 1. c 2. a 3. c 4. a **B.** 1. caps lock 2. CPU 3. Time table 4. scanner **C.** 1. T 2. F 3. F 4. F **D.** 1. The number keys are used to type number. they are marked with the digit 0 to 9. 2. The first display screen that appears on starting a computer is called desktop. 3. To purchase item from home with the help of computer is known as online shopping. 4. A human being can think but a computer cannot think.

CHAPTER 5 : MORE ABOUT MOUSE

A. 1. c 2. a 3. a 4. b **B.** 1. Douglas Englebart. 2. Mouse pointer. 3. Double click. 4. Scroll. **C.** 1. F 2. F 3. F 4. T. **D.** 1. The right click is used to display a list of command on the monitor. 2. Drag and drop is used to move an object on type screen. 3. The slant arrow on the screen is called a mouse pointer.

CHAPTER 6 : MORE ON PAINT

A. 1. a 2. a 3. a **B.** 1. Fill with colour. 2. Cruve. 3. Drawing area. 4. Title bar. **C.** 1. F 2. T 3. F 4. F. **D.** 1. Colour 2 button shows the background color. 2. (i) Paint button : It contain

different option to work in paint. (ii) Group : It contain a set of related commands. 3. Eraser tool is used for erasing any part of a picture. 4. Curve tool is used for drawing curved lines. **E.** c a b c

CHAPTER 7 : INTRODUCTION TO TUX PAINT

A. 1. c 2. a 3. b **B.** 1. Eraser tool. 2. Tool bar. 4. Tux Point.
C. 1. F 2. F 3. T **D.** 1. Parts of the Tux Paint screen are (i) Toolbar (ii) selector (iii) color box (iv) Help area (v) Drawing canvas. 2. The paint is used to make beautiful drawing just like paint. 3. To save your drawing, click on the save tool from, the toolbar.

CHAPTER 8 : INTRODUCTION TO WORDPAD

A. 1. a 2. c 3. c **B.** 1. Quick access toolbar 2. Text area 3. cursor **C.** 1. F 2. F 3. T 4. F **D.** 1. It helps to do common tasks with just one click. 2. It is a small blinking line on the text area. It tells the position of the typed text. 3. Wordpad is a program of the accesories menu and used for typing text. **E.** 1. KEYBOARD 2. BACKSPACE 3. NUMERIC

MODEL TEST PAPER-II

A. 1. a 2. b 3. a 4. c **B.** 1. Cursor 2. Text area 3. curve 4. title bar **C.** 1. F 2. F 3. F 4. T **D.** 1. (i) Pint button : It contains differen option to work in paint (ii) Group : It contain a set of related commands. 2. The slant arrow on the screen is called a mouse pointer. 3. Parts of the Tux paint screen are (i) Toolbar (ii) Selector (iii) color box (iv) Help area (v) Drawing canvas. 4. The right- click is used to display a list of command on the monitor.

Teacher's Manual

Computer with Frolic (Class-3)

CHAPTER 1 : COMPUTER: HARDWARE AND SOFTWARE

A. 1. a 2. c 3. a 4. b 5. c **B.** 1. storage devices 2. output devices 3. computer 4. software 5. operating system **C.** 1. F 2. F 3. F 4. T 5. F **D.** c 1. Computer hardware refers to all the electronic and mechanical parts of a computer system. 2. (i) Motherboard (ii) RAM (iii) Hard disk 3. The device which are used for storing data are called storage device. for ex- Harddisk . 4. Software is a set of program that tells a computer what to do there are two types of software. 5. (1) Application software (i) The software that helps you to do a specific type of work is called application software (2) System software (i) The software that controls that overall working a computer is called software. **E.** 1. Software 2. Output 3. Operating system 4. Keyboard. 5. Computer 6. Media player 7. Joystick

CHAPTER 2 : INTRODUCTION TO WINDOW 7

A. 1. c 2. b 3. a 4. b 5. c **B.** 1. Operating system 2. Background 3. Taskbar 4. Notification area 5. Maximize button. **C.** 1. 2. F 3. F 4. F 5. T **D.** 1. It shows buttons corresponding to the programs or files that are currently opened. 2. The first screen appears with labelled pictures on it is called desktop. 3. Icons are small pictures that point towards a specific program such as folder and document. 4. The background picture of window 7 desktop is called

desktop background. 5. Operating system is a software that helps you to operate the computer system through its various functions. two features of window operating are: (i) MS DOS (ii) WINDOWS **E.** 1. (i) Desktop (ii) Background 2. (i) Pick tool bar (ii) Ribbon Display option (iii) Read Mode (iv) Page layout

CHAPTER 3 : MORE ON PAINT

A. 1. a 2. a 3. a 4. b **B.** 1. cut 2. Ctrl+s 3. Ctrl+o 4. copy 5. curve **C.** 1. F 2. F 3. T 4. T 5. F **D.** 1. Curved shaped is used to draw smooth and curved lines. 2. Color picker tool is a very useful tool to copy a color from an existing object and filling it into any other objects. 3. COPY: copy command is used to make a duplicate copy of an object. CUT: cut command is removes the selected portion of an image. 4. 1. To cut a selected portion of an image, follow the given steps : (i) Select the portion of the image that you want to cut . (ii) On the home tab, click cut command in the clipboard group. The selected portion of an image is cut, that is removed from the image and can be inserted anywhere. (iii) The cut portion of an image is not deleted, it is saved in temporary place called clipboard. 2. To use the paste command follow the given steps : (i) Select the drawing by using the select . (ii) Select the copy command on the Home tab. 5. It is used to select a rectangle shape area. **E. 1.** 1. b 2. a 3. d 4. e 5. c **2.** 1. Printer 2. Paste 3. Delete 4. Darkish.

MODEL TEST PAPER-I

A. 1. c . 2. c 3. a. 4. a. 5. b. **B.** 1. Curve 2. storage device 3. Taskbar 4. Software 5. Notification area **C.** 1. T 2. F 3. F 4. T 5. F **D.** 1. COPY: copy command is used to make a duplicate copy of an object. CUT: cut command is removes the selected portion of an image. 2. Curved shaped is not used to draw smooth and curved lines. 3. (1) Application software (i) The software that helps you to do a specific type of work is called application software (2) System software (i) The software that controls that overall working a computer is called software. 4. The background picture of window 7 desktop is called desktop background. 5. Software is a set of program that tells a computer what to do there are two types of software. **E.** 1. Delete 2. Paste 3. Software 4. Linux 5. System. **F.** 1. Icons 2. Desktop 3. Background

CHAPTER 4 : MORE ABOUT KEYBOARD

A. 1. b 2. b 3. b 4. a **B.** 1. Caps lock key 2. Special 3. End 4. Standard **C.** 1. F. 2. F 3. T 4. T **D.** 1 The different types of the keys on the keyboard are: •Alphabet Keys • Arrow Keys • Number Keys • Special Keys • Navigation Keys • Function Keys. 2. Enter Key is used to move the cursor on the degining of the next line. 3. Function keys are ussed to perform special functions. they are present on the top of the keyboard. 4. Take care of the following things while using the keyboard. • Do not pull or push the keyboard too hard. it may damage the wire connected to the keyboard. • Do not keep anything on the keyboard such as books and CDs. **E.** butterfly, alarm clock, finger tip, flower pot, hand glove,

lady bug, pig tail **F.** 1. Harry Potter 2. Sam, Japan 3. China 4. London, America 5. Julia, Maria 6. Jackey 7. Mary, Honey 8. Tuffy 9. Mary, January 10. Sonia 11. David 12. President, America, White House **G.** 1. Saturday Tom 2. March 3. Sam 4. Alice **H.** 1. Write your choice **I.** 1. bunch 2. litter 3. team 4. bouquet 5. cluster 6. pack **J.** 1. wolves 2. grass 3. grapes 4. kittens 5. horses 6. birds 7. people 8. students 9. cattle 10. stars **K.** 1. class 2. flock 3. bunch 4. bundle 5. shoal 6. cluster 7. troop 8. crowd 9. parliament 10. school **L.** 1. sleep 2. smile 3. health 4. honesty, policy 5. prevention, cure 6. joy, sorrow, life

CHAPTER 5: MICROSOFT WORD 2013

A. 1. b 2. a 3. b 4. c 5. b **B.** 1. Microsoft 2. Document 3. Status bar 4. Rulers 5. Title Bar **C.** 1. T 2. T 3. F 4. F 5. T **D.** 1. Microsoft Word is a word processing software. As we use a notebook to write words and sentence. in the same way, MS Word allows us to type the text on a computer. a word processor is an application software that helps us to type the text on a computer. A word processor is an application software that helps us to type, edit and format the text. MS Word 2013 is the latest version of word. 2. To save a document , follow the given steps: 1. Click on the file tab. 2. Click Save AS option. the save as dialog box appears. 3. Type file name in the file name box and click save button. 3. You can connect to a microsoft email account and send mails directly. • You can add a video to a world document straight awayn from the internet by using online video button. 4. To open document, follow the given steps: 1. Click on the file tab, select the open option from the drop-down menu. 2. The open dialog box will appear.

Select the file name to be opened. 3. Click on the open button. 5. • **Document Area:** 1. This is a large white space to type text. • **Cursor** The blinking line on the document area is called the cursor. It tells the position of the typed text. • **Status Bar** : It display the page number, number of twords, zoom option, etc. **E. MS WORD, SAVE, NEW, CLOSE, DOCUMENT.**

CHAPTER 6 :LOG ON TO LOGO

A. 1. a 2. c 3. c 4. c 5. a **B.** 1. Easiest 2. Graphics 3. Recall list box 4. Primitives 5. FD **C.** 1. T 2. F 3. T 4. F 5. T **D.** 1. • The turtle is a small triangular structure that obeys only logo commands. •It has two parts. The pointed top of the turtle is known as the head and the bottom part of it is known as the tail. 2. HOME command is used to get the turtle to the centre of the screen. Type HOME in the input box the press ENTER key or click the Executive button. 3. Logo screen is split into two parts: 1. Main Screen . 2. Commander Window. 4. The Main Screen: Main Screen shows the result of the commands. It is also called graphics screen. The commander Window: This is the window which you use to give commands to LOGO. The Commander Window is divided into three parts again. • command input box • recall list box • command buttons. 5. The LEFT or the LT primitive is used to turn the turtle towards the left side. While using the angle by which you want the turtle to rotate the towards the left. **E.** 1. E 2. D 3. F 4. B 5. F 6. A 7. H 8. C

MODEL TEST PAPER- II

A. 1. b 2. c 3. a 4. a 5. b **B.** 1. FD 2. Special 3. Title Bar 4. Easiest 5. Cursor **C.** 1. T. 2. T. 3. F. 4. F. 5. T 6. Last night Jenny sang so well that everybody praised her. **D.** 1. . Function keys are used to perform special functions. they are present on the top of the keyboard. 2. 1 The different types of the keys on the keyboard are: •Alphabet Keys • Arrow Keys • Number Keys • Special Keys • Navigation Keys • Function Keys. 3. • The turtle is a small triangular structure that obeys only logo commands. •It has two parts. The pointed top of the turtle is known as the head and the bottom part of it is known as the tail. 4. The LEFT or the LT primitive is used to turn the turtle towards the left side. While using this the angle by which you want the turtle to rotate towards the left. 5. • **Document Area:** 1. This is a large white space to type text. •**Cursor** The blinking line on the document area is called the cursor. It tells the position of the typed text. •**Status Bar** : It displays the page number, number of words, zoom option, etc. **E.** 1 E 2. D 3. F 4. B 5. F 6. A 7. H 8. C

Teacher's Manual

Computer with Frolic (Class-4)

CHAPTER 1 : INTRODUCTION

1. b 2. b 3. c 4. a **B.** 1. CPU 2. Control 3. Output 4. Joystick 5. Storage device **C.** 1. F 2. T 3. T 4. T 5. T **D.** 1. A printer is a output device used top take output on a paper. The most commonly used printers are (a) Dot Matrix (b) Inkjet, (c) laser printers. 2. Output device show the result of the work device done by the computer. Two output device are (i) Monitor (ii) Printer. 3. It is the main memory of the computer It is present on the mother board. It is of two types RAM and ROM. 4. The CPU has mainly three parts. 1. **MU** (Memory Unit): This unit performs all airthmetic calculations and logical operations. 2. **ALU**(Airthmetic and Logical Unit):This unit performs all airthmetic calculations and logical operations. 3. **CU** (Control Unit): The control units works like a traffic policeman and manages all the operations of a computer. 5. The secondary memory is ussed to store the data permanently. Its data is not earsed even when the computer devices are hard disk, compact disk and pen drive.

CHAPTER 2 : WORKING WITH WINDOW 7

A. 1. c 2. c 3. b 4. c **B.** 1. Window 7 2. Casceding 3. tasks 4. Window 10 5. deleting **C.** 1. F 2. F 3. F 4. T 5. T **D.** 1. **Searching Made Easier** We can search any file or folder quickly in our computer. 2. **Window supports Multitasking** Window 7 can perform effectively many task at time. For

exam-ple , we can make presentations while enjoying music using Window Media player. 3. **Cascading Window** (The cascading window option arranges all the open windows from the top left corners to the bottom right in layers. 2. **•Files:** A file is a collection of data stored on some storage device. **•Folder:** A folder is a place where many files are stored. 3. **•Open MICROSOFT WORD.** A blank page is displayed on the screen. **•Start typing text on the blanks page.** **• After completing your work, save your file using the File tab> Save option abd type a file name in the Save dialog box. This creates a new file. 4. To delete a file or a folder , follow any of these steps. 1. Select the file or the folder, and then click the delete option ffrom the shortcut menu that appears. 3. The confirm Delete File/ Folder dialog box appears.**

CHAPTER 3 : INTRODUCTION TO MULTIMEDIA

A. 1. a 2. c 3. a **B.** 1. Sound card 2. Microphone 3. Multimedia 4. Autorun **C.** 1. F 2. T 3. T **D.** 1. Multimedia is a collection of text, graphic, sound, animation and video clips. 2. Its solves, sums, prepares bills , plays game and movies, helps you to listen songs and do a lot of work for you and your family. 3. To install a multimedia CD, follow the given steps: 1. Insert the CD in the CD ROM drive. 2. Open 'COMPUTER' icon desktop by double clicking on it. 3. Double -click the CD icon. The CD opens and its contents gets visible. 4. Now, double-click the setup icon in the CD contents. 5. Complete the installation of software by following the instructions. Yours software installation is complete and now you may use it.

CHAPTER 4 : MS WORD 2013

A. 1. c 2. b 3. a 4. b **B.** 1. Mirror Image 2. Secondary Memory 3. ROM 4. ALU 5. Motherboard **C.** 1. T 2. F 3. T 4. F 5. T **D.** 1. Making changes in a document is called editing. 2. Formatting means changing and arranging text in a document text in a document to make it attractive. 3. (i) You can change the size and style of letters. (ii). You can cut, copy and paste text. (iii). You can edit words and sentences 4. Moving means to shift the text from one place to another. copying means to copy text, word or sentences from one place to another. 5. (i). Title Bar (ii). Document Area (iii). Status Bar

MODEL TEST PAPER-I

A. 1. b 2. a 3. a 4. c 5. c **B.** 1. Sound card 2. Storage 3. ??? 4. Output 5. Window 10 **C.** 1. F 2. F 3. F 4. F 5. T **D.** 1. (i) To install a multimedia CD, follow the given steps: 1. Insert the CD in the CD ROM drive. (ii). Open 'COMPUTER' icon desktop by double clicking on it. (iii) Double -click the CD icon. The CD opens and its contents gets visible. 2. **Window supports Multitasking** Window 7 can perform effectively many task at time. For exam-ple , we can make presentations while enjoying music using Window Media player. 3. Output device show the result of the work done by the computer. Two output device are (i) Monitor (ii) Printer. 4. A printer is a output device used to take output on a paper. The most commonly used printers are (a) Dot Matrix (b) Inkjet (c) laser printers. 5. Formatting means changing and arranging text in a document text in a document to make it attractive.

CHAPTER 5 : MS POWERPOINT 2013

A. 1. b 2. c 3. c 4. c **B.** 1. F5 2. PPT 3. Slides 4. Slides Show 5. Notes pane **C.** 1. F 2. T 3. T 4. T 5. F **D.** 1. A presentation is a structured set of slides where as a slides is single page in the presentation. 2. A presentation is a structures delivery of information. It is a systamatic display of information along with graohics, movies and sound. 3. MS Point is a presentation graphic software developed by microsoft. 4. (i) Click on the File tab New option. The Available Templates and Themes pane appears. (ii) Choose the Blank presentation option. Click on create button. or Simply double- click the Blank presentaion option. (iii) A new presentation with a blank slide will open in the PowerPoint screen. 5. **Slides Tab** : The Slides tab shows thumbnails of all slides in the presentation. This tab allows the user to move slides easily from one position to the other. By default, the slides tab is active. **Outline Tab** : The outline tab displays the text content of each slide. You can edit your text directly in the outline view. **Notes Pane** : In the notes pane, you can type your personal notes about the current slide.

CHAPTER 6 : LOG ON TO LOGO

A. 1. a 2. b 3. a 4. b 5. a **B.** 1. Pause. 2. Status Button. 3. Sum. 4. Print. 5. only one. **C.** 1. F 2. T 3. F 4. T 5. T **D.** 1. LOGO is a simple proگرامing Language used for drawing basic shapes and performing airtmetic calculations. 2. The term Looping means performig the same work again until the desired output is obtained. In LOGO, we use the REPEAT primitive for looping. The REPEAT primitive saves a lot of

time as the command for looping. This is the syntax of the REPEAT primitive. For example, to print 'LEARNING LOGO IS FUN' 3 times, you need to give PR [LEARNING LOGO IS FUN] command 3 times. Alternatively, you can use the REPEAT command. REPEAT 3 [LEARNING LOGO IS FUN].

3. Print is a very important primitive to display a letter, a number, a word or a sentence in the command can also be used for doing calculations. The short form of PRINT is OR. It can take only one input at a time.

4. • After typing Print command, leave one space and then type the numbers with the desired operator (s). • All the arithmetic operator take two inputs.

CHAPTER 7 : MORE ON INTERNET

A. 1. c 2. c 3. a 4. b 5. a **B.** 1. world wide web 2. Uniform Resource Locator 3. Home Page 4. web sites 5. Microsoft Internet Explorer **C.** 1. F 2. F 3. T 4. T 5. T **D.** 1. A hyperlink may be a text or a picture and navigates to new page on clicking. 2. Each website is identified by its unique address, which is known as the uniform Resource Locator (URL). The URL should be entered in the address bar of a web browser. eg www.google.com 3. USES OF INTERNET (i) It provides information/ news on any topic. 2. It allows us to send and receive message (text, image, sound, and videos). anytime and anywhere. 4. Information is put on the Internet in the form of digital pages called Web Pages. These pages may contain text, graphics, video, audio and links to other pages. 5. A web browser is a software application or program that allows you to access the entire information available on the web. You can visit any website by entering its URL in the address bar.

MODEL TEST PAPER-II

A. 1. c 2. c 3. c 4. b 5. a **B.** 1. PPT 2. Home Page 3. Status Button 4. Pause 5. Website **C.** 1. F 2. T 3. F 4. F 5. T **D.**

1. Print is a very important primitive to display a letter, a number, a word or a sentence in the command can also be used for doing calculations. The short form of PRINT is OR. It can take only one input at a time. 2. The term Looping means performing the same work again until the desired output is obtained. In LOGO, we use the REPEAT primitive for looping. The REPEAT primitive saves a lot of time as the comand for looping. This is the synatx of the REPEAT primitive. For example, to print 'LEARNING LOGO IS FUN' 3 times, you need to give PR [LEARNING LOGO IS FUN] command 3 times. Alternatively, you can use the REPEAT command. REPEAT 3 [LEARNING LOGO IS FUN]. 3.
